01

PROFILE

Currently pursuing Bachelor's in Electronics and Telecommunication . I have moderate amount of experience in projects regarding Backend Development and Machine Learning.

I am actively seeking opportunities to gain valuable work experience and enhance my existing skill set.

02

EDUCATION

- **Bachelor's in Electronics and Telecommunication**
Sinhgad Institute of Technology & Science ,
Nahre (2021-Present)
- **High School Graduate**
Sinhgad Spring Dale Public School , Vadgaon
(2019-2021)

03

HONORS / AWARDS

- **Winner at Hackathon conducted at S.I.T.S.** October 2022
Winner of the "Hack at S.I.T.S." hackathon, our team created a project—a game inspired by Mario utilizing the Tiled program and the Pygame library, implementing it with Python.
- **Participated in National Level Competition on Robotics at Technex '23 held in IIT Varanasi** March 2023
Our project entailed developing a maze-solving robot, and my role involved programming both the maze-solving algorithm and the robot's path tracing capabilities.
